

**News & Updates from WasteCap Resource Solutions**

**Latest Recycling Results**

WasteCap Resource Solutions' projects have diverted **518,486 tons** of construction and demolition waste debris. Discover just how many pounds per person and trees we have saved to date [below](#).

**WasteCap Welcomes New Project Manager**

Please join us in welcoming the newest addition to our team, Stephen Servais.

Stephen Servais joins Waste Cap with more than 10 years of experience promoting urban sustainability. As co-founder of Pragmatic Construction, Steve helped push the envelope on green home design and construction while also positioning his company as an early leader in home deconstruction. ### WasteCap Welcomes New Project Manager

Stephen has designed and taught courses at UW-Milwaukee and Marquette University on urban environmental history and the history of the environmental movement in America, and has helped lead conservation and community development efforts in Africa and the South Pacific. Steve lives in Milwaukee with his wife, Ellen and two children. He enjoys playing basketball, travel, reading books on history and science, and canoeing the waterways of Wisconsin. He is excited to join the team at Waste Cap as a project manager, where he hopes to help cut down on the waste stream and possibly to challenge (eventually) the very idea of waste.

To get in touch with Steve email, [sservais@wastecap.org](mailto:sservais@wastecap.org) or call, 414-961-1100
