

WasteCap
Resource Solutions

OUR RESOLUTION IS TO GAIN

158 pounds per person in Wisconsin.

That's how much construction and demolition debris has been reused and recycled by WasteCap Resource Solutions clients. Together we have reused or recycled 445,573 tons of materials. WasteCap would like to thank their loyal members for their continued support and contribution to transforming waste into resources. By the end of 2011, our goal is to reuse or recycle 180 pounds of debris per person in Wisconsin. Recycle and report your results on your next project in WasteCapTRACE to help us achieve our resolution to gain! www.wastecaptrace.org

Become an Accredited Professional in Construction Recycling at www.wastecap.org/training
